## DETAILED ACTION

### *Allowable Subject Matter*

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 4 and 12-14, the prior art of record fails to anticipate or rendered obvious the combined element/steps of **"if the rating data for the at least one program for the home jurisdiction is not available, using the rating data that is provided in the digital data transmission for the at least one program for a foreign jurisdiction to determine whether to block display of the at least one program"**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Applicant arguments filed 8/10/2009 have been found persuasive. While Fleming teaches receiving multiple sets of ratings data from multiple sources, Fleming fails to teach a step of substituting one set of ratings data from a home jurisdiction with a set of ratings data from a foreign jurisdiction if the ratings data from a home jurisdiction cannot be found. Further, DeCarmo teaches receiving both types of ratings data (**parental control information and incoming IP packets**) before making a determination of which set of ratings data is appropriate.
